BBA Aviation

About us:

Aviation is one of the most “global” industries: connecting people, cultures and businesses across continents.

Air transport is a driver of global trade and e-commerce, allowing globalization of production. The small volumes of air cargo amount to big values in world trade.

India has become the 3rd largest domestic aviation market in the world and is expected to overtake UK to become the 3rd largest air passenger market by 2025

What we learn @ IZee School of Aviation & Logistics:

Personality Development & Grooming
