AVG – Animation, VFX & Gaming

Why choose between Animation, VFX or Gaming when you can get skilled for all three in-demand industries! The course covers both the Technical & Artistic aspects of the Animation, Visual Effects & Gaming, giving you the competitive edge over others upon completing this course.

Animation – VFX

Where reality meets and blends with the imagination, Visual Effects (VFX) begins.

A career in animation is one of the most sought after courses in recent times. With lucrative jobs, opportunity to showcase your creativity and a chance to be in the spotlight, this career-building course will sharpen your skills and prepare you for exciting jobs.

3D Digital Game Art & Design

Games have now become the most popular & profitable form of entertainment. Today's Gamer looks not just for a good story, entertaining game-play but also stunning Game Art.

Graphics & Web Design and Development

With the rapid expansion of the Internet, the demand for skilled web designers is on the upswing and this number is only set to rise in the coming years. The industry-endorsed techniques make you a creative professional with skills in rich multimedia content, visually appealing websites, logo creations, digital graphics, UI/UX, content management and many more

Digital Design & Marketing

The internet world and all of the evolving technologies have made an impact on almost every individual's life, be it to learn something online or to communicate with one another or for entertainment. The increase in content has led to rising demand for digital content creators and designers.

Digital Architecture & Interior Design

If you are creative and have the passion for Architecture and Interior Design, this is your chance to turn that into a profession by creating high-end architectural models, walk-throughs & realistic effects
